

## ART TRENDS GALLERY

*Art Trends Gallery* offers a broad range of art from artists spanning the globe.

Purchasing the gallery in October of 2007 was natural for owner Kent D. Kehr Sr., an art collector for more than 30 years. “Basically, I got into the business because I like art and I have been told by many people that I have a very good eye for art,” Kehr said. “I have bought art because I liked it and not for investment, but some of my purchases have turned out to be very good investments.”

*Art Trends Gallery* offers original paintings, both contemporary and representational, as well as glass, wood, jewelry and wearable art. We take pride in being a fine art gallery offering decorative and collectible pieces at the highest-quality level and value.

The gallery features work from artists from all over the world, including some very talented artists from Russia, China, Korea and Germany, as well as many local, regional and national artists. We feature two of the world’s top

glass artists, Hans Godo Fräbel, whose art is in museums worldwide and Sam Stang, a local artist with a national reputation. The gallery’s artists will do custom work per customer request.

“We probably have the broadest selection of art in the St. Louis area,” Kehr said. “We recently had a woman from Edwardsville come to the gallery and she told us that she had been looking for a painting all over the St. Louis Metropolitan area and that we have the biggest and best selection of any gallery in St. Louis. She bought a painting from us on her first trip.”
