

EUREKA RENTAL LLC

When it comes to equipment rental, sales, service and parts, *Eureka Rental* has it all. The multi-faceted business includes a full service shop for small engine repair, commercial lawn care equipment sales, and rental of large and small construction equipment. Top-of-the-line brands in power equipment like Ferris, Snapper, Stihl, Shindaiwa and Redmax are readily available. Stocking over 300,000 parts allows *Eureka Rental* to provide the best service around.

Eureka Rental offers after the sale service that you cannot get at the big boxes. They service what they sell, unlike most stores who will sell it and forget it.

“Our customers are contractors and homeowners who need to buy, rent or repair lawn mowers, chain saws and trimmers,” said Scott Nelson, who founded the company four years ago.

Rentals are the driving force of Nelson’s business. Available items include excavation equipment, trailers, scaffold, brush chippers, concrete saws, trenchers, pres-

sure washers, pumps and generators to name a few. “Customer service is the most important part of our business,” Nelson said. “We have everything including all terrain bucket lifts (up to 50’) and Bobcats up to a T-250. Our inventory is constantly growing. *Eureka Rental* is family-owned and operated and specializes in service with a personal touch. The friendly, knowledgeable staff is delighted to help with equipment needs both large and small and even will arrange for equipment delivery. A complete list of products and services offered at *Eureka Rental* is available on their website. Visit there, and you will want to visit them in person. Stop by the Open House on March 28 from 9-5 p.m. for huge savings!
