

Hope Montessori Academy, is proud to announce the opening of their new Infant Toddler Program on the Wildwood Campus. The program is a reflection of their continued commitment to meet the changing needs of the community. The new program in Wildwood has been thoughtfully designed to satisfy the specialized needs of infants, toddlers, and two year-olds.

Babies do so much more than just eat and sleep. They are actively learning, all the time. And even during these earliest stages of life, or perhaps especially so, the Montessori approach is effective in nurturing and supporting the emerging child. By encouraging freedom of movement, age appropriate challenges, and meaningful activities, babies, toddlers and two year-olds are being prepared for a smooth and confident transition into the Montessori preschool classroom.

“Our focus is on your child,” says Wildwood Campus Director Mary Denise O’Boyle. “We have one care provider for every four children and each classroom is supervised by a Montessori educator certi-

Mary Denise O'Boyle, Director

fied by the American Montessori Society.”

O’Boyle advises that it is never too early to begin a Montessori education. Providing babies with a genuine Montessori environment and Montessori trained educators from the start, they are being endowed with the finest possible foundation for the future.

Hope Montessori Academy – Wildwood is a private school which offers the very finest in Montessori education and child-care services for children from infancy through six years of age. In addition, during the summer months, they feature a day camp designed for children through age twelve, and includes on-site swimming lessons, art studio class, sports camp and many exciting field trips.
