

With schedules changing daily, every parent needs flexibility and that is exactly what *Kidsplay* offers. A licensed and Missouri accredited childcare center, *Kidsplay* provides hourly drop-in, back up and full and part-time childcare for ages 2-10.

Former teacher and owner Sandy Kraner said *Kidsplay's* many programs are perfect for the parent with a varied work schedule or even the parent who needs to run a quick errand, attend a meeting or simply enjoy a much needed night out. "Kidsplay is unique. Parents never need a reservation, they can drop in day, evening and week-ends whenever they need childcare," Kraner said.

Plus, the indoor and outdoor playgrounds, computers, games and a big-screen movie room keep any child happy while Mom or Dad is away, and give parents the piece of mind that their child is happy and more than anything safe.

Kraner opened *Kidsplay's* Chesterfield location in 1991, and the Manchester loca-

tion opened its doors in 1996 followed by the O'Fallon location. All three locations offer year round preschool programs taught by degreed teachers. An after school program with transportation to area schools along with winter, spring and summer break camps are very popular. Private Sunday birthday parties are also offered.

From preschool programs to child care programs, *Kidsplay* provides parents the options and flexibility they need to make sure that their child is cared for and most of all in safe hands, while they are at work or trying to tackle their to-do list.
