

MOM'S FAMILY RESALE

Going Green has never been more in fashion, and what better way to save some “green” and help the planet than by shopping at a resale store? *Mom’s Family Resale Shop* in O’Fallon is just the place. It is a large consignment store offering high quality merchandise at a fraction of retail prices. The store is stocked with a huge inventory of gently used items like clothing, shoes, purses, toys, home décor and affordable used furniture, with selections changing daily.

“The store is really more than meets the eye. You’ll never know what you’ll find,” owner Kristal McAtee said. “We put over 200 new items daily on our shelves. We provide a great value on a wide array of items while helping the economy and the environment by recycling.”

Prices are low and inventory is clean. One of the more popular sections is the \$1 room. Consignors can receive store credit or cash by simply rotating their own wardrobes and bringing slightly used items to the store.

Soon, Mom’s Resale will open a Web site, and consignors will be able to check their accounts online.

The last Friday of every month,, Mom’s Resale hosts a Girls Night Out with discounts and a drawing for a \$50 gift certificate. Ladies 21 and older will enjoy complimentary wine and cheese while shopping.

Open daily, *Mom’s Family Resale Shop* ensures that there is always time to save on a unique variety of items – and help save the planet.
